U. S. MAY BE DRAWN INTO RAIDER TROUBLE

Reported Capture of Three Americans May Be Basis for New Argument.

103 NEUTRALS TAKEN

Armed Ship Problem Again—Equipment of Commerce Destroyer Complete.

By United Press
WASHINGTON, Jan. 20.—The United States faces a new international problem with Germany as a result of the reports that three Americans were made prisoners of war by the German raiders in their recent activities in South American waters.

Indications of anxiety were reflected when it was officially admitted that if Germany does not volunteer information on the subject within the next two days the United States will immediately make formal inquiries, despite the fact that Germany has officially admitted that 103 neutrals were taken in the raids. Whether any Americans were included in this number was not mentioned.

Germany claims that these persons were taken because they were accepting pay on armed vessels of the enemy. It is likely that the old controversy of what constitutes an armed ship will arise.

Work of Raider Described.

By United Press
BUENOS AIRES, Jan. 20.—Additional details indicating the typical thoroughness with which the raider was prepared and equipped lead shipping circles to predict a long chase by Allied ships before the scourge is cornered.

Wireless dispatches received today say that the auxiliary British cruisers Macedonia and Orama had arrived in port.

"I began calling for help by wireless the moment I sighted the raider," said the captain of the Netherby-Hall. "I kept this up until a shock went through my ship and I knew it was useless to try to escape. The raider was equipped with several machine guns, in addition to her cannon, and with three submarines about eighteen feet long, capable of operating over a small radius, torpedoes, dynamite and ammunition. I would put the raider's speed at about twenty-two knots an hour. She always traveled at top speed in the daytime. At night she slowed down."

Additional information from the captain of the Radnovshire today gave new details of his experience, further indicating the raider had converted one of her prizes into another commerce destroyer.

Brazilian Steamer Sees Raider.

By United Press
RIO DE JANEIRO, Jan. 20.—First reports indicating the general location of the German South Atlantic raider were received here this afternoon. The Brazilian packet steamer Bahia reported he had sighted a vessel believed to be the raider off the east coast of Rio Grande Norte last Thursday. The stranger was traveling north at a speed estimated at twenty knots an hour. No consort was sighted with her.

Practically all South American nations today were taking steps strictly to guard the neutrality of their territorial waters.

Artillery at Work in West.

By United Press
PARIS, Jan. 20.—Violent artillery action in the region of Roys was the only activity reported from the West today. Elsewhere on the front it was quiet, the statement said.

Another Rumanian Town Taken.

By United Press
BERLIN, Jan. 20.—Capture of the Rumanian town of Nanesti on the River Sereth yesterday by storm was announced tonight. The capture was made, it is true, despite a heavy snow and darkness, which impeded the action of the German artillery.

LAST TRIBUTE PAID TO DEWEY

America's Great Admiral Buried in Arlington Cemetery.

By United Press
WASHINGTON, Jan. 20.—The last tribute was paid today to Admiral George Dewey. President Wilson, Secretary Daniels, other government officials, middies, jacksies, soldiers and civilians joined in the impressive ceremonies which closed with "taps" at Arlington.

At 10 o'clock private services were said at the residence. Then, borne on a flag-draped caisson under the escort of Annapolis midshipmen, the coffin was taken to the capitol, where in the rotunda the public attended the ceremony. At noon nineteen guns sounded over the city, while battle-ships at a distance took up the same farewell. From the capitol the funeral cortege moved to the city and then across the Potomac to Arlington, the national cemetery, where "taps" bade the marine hero good-bye.

All government departments closed today. Congress adjourned in honor of America's great admiral. All private business stopped for an hour throughout the city of Washington and street car traffic was suspended.

WORK ON SCHOOLS PROGRESSES

Lee, North Ward, and Douglass Buildings Now Under Construction.

David Stephens, first assistant to William B. Itner of St. Louis, the architect for Columbia's new schools, said last night in an interview that the Lee School is near completion, and that the Fred Douglass School would be finished in July. Work on the second floor has begun at the North Ward School.

The cost of the North Ward School is about \$2,100, the Douglass School under \$35,000 and the Lee School over \$8,000.

The three schools will have up-to-date appliances, according to Mr. Stephens. The Douglass and the North Ward Schools will have heating and ventilating plants but the Lee School will have only the heating plant.

Mr. Stephens spoke favorably of the condition of the schools and praised the way in which they are kept in repair. He said that, on the whole, the architectural status of Columbia schools, is unusually good.
